The for Letters

The wind save a sminual and twenty cents pounds per animal and twenty cents per head in feeding and add it to the value of the sheep, not to calculate on anything else, in the present. But by far the greatest good to the sheep raisers by the introduction of this system throughout the state will be the incentive of a home market for all they can raise, at certain prices per pound, that will enable the producer to see for him-self the weight of the sheep he is producing and to stimulate production heavier and better sheep to bring the highest prices. This system will ena-ble the sheep raisers to take back his unfinished wethers, will permit him to sell those in prime condition and re-tain those that are rejected until in the flesh to meet the market requirements. At this time arrangements are pending betwen the management of the Texas Continental Meat Company and influential and weathy men of this city who are interested in for-warding all such enterprises that, like it, show promise of success, of good to the country and profit to themselves, and from what we can learn we are satisfied the process now in successful operation in the limited field of the southern portion of the state, will be in use here within very few months on a much heavier scale, and not only receiving summer grass-fed cattle and sheep, but these fed for winter, in the farming belt so easily furnishing homense numbers. And should anything prevent the immediate accomplishment of this programme at this point, it will not stand still, for not above has Fotr Worth and this immediate section become interested in this work, but other cities are prepared to adopt it directly it is placed before them in tangible shape for rejection or acceptance. We sincerely hope that the projected establishment will be erected at once, that it will be carried to a successful issue, and when it is, we shall have all the advantage of a boundless range with economical transportation, and the continued prosperity of all the stock interests of Texas will be assured.

No Whiskey!

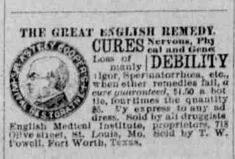

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a nonintoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron

Bitters: Cin., O., Nov. 16, 1881. Gents:—The foolish wast-ing of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and it applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

caused by matarial poisoning of the blood, such as Chills and Fever, Forer and Ague, Sun Pains Dumb and Masked Ague, Third-day Ague, Sinking Chills, Intermittent, Remit-tent, Bilious and all other Feyers caused by maiaria. It is also the safest and best cure for enlarged Spleen (Fover Cake), Coneral Schlitty and Periodic Neuralgia.
